

Dissemination Workshop on National HIV Estimates 2023

4th July 2024, National Center for HIV/AIDS, Dermatology and STD, Phnom Penh

The National Center for HIV/AIDS, Dermatology and STD (NCHADS) and UNAIDS, Cambodia has conducted the workshop on dissemination of Cambodia national HIV Estimates 2023 on 04th July 2024 at NCHADS. The HIV estimates are the center piece of strategic information, and it is crucial that HIV estimates truly reflect the current state of epidemic to inform and guide the local and national response towards the last and the most difficult miles towards ending AIDS. This workshop has been conducted in hybrid mode to allow participants to join physically and online with the purpose of providing the update status of current situation of HIV epidemic in Cambodia and inform to national program and relevant partners for program implementations.

NCHADS has invited a lot of honorable guests and partners from national and international institutions and organizations to join this workshop including National AIDS Authority (NAA), National Maternal and Child Health Center (NMCHC), University of Health Science, Cambodia Red Cross (CRC), UNAIDS, USAID EpiC/FHI360, US-CDC, KHANA, RHACC, MHC, MHSS, CWPD and other relevant partners working on HIV response in Cambodia.

Dr. Patricia Ungpin, Country Representative of UNAIDS, has provided the attention on HIV estimates and appreciated to the core technical team for doing this exercise.

Dr. Ouk Vichea, NCHADS Director, also provided the important remarks especially, the comparison between HIV Estimates from this round to previous round but we can look backward to previous year in the same round of HIV estimates. The workshop was started from the presentation of HIV estimates result by Dr. Patricia Ungpin and followed by the fruitful discussion on the results regarding to the data and program perspectives.

H. E Tia Phalla provided closing remark for National workshop on dissemination of Cambodia national HIV Estimates 2023
