IV. Challenges.

- The B-IACM has been scaling up covering the national wide in 25 provinces to 63 ODs, and GFATM grant for 2024-2026 did not approved for supporting GoC Coordination Meeting at ODs and provincial level for effectively coordinating and monitoring on B-IACM Implementation to reach the 95 95 95 by 2025.
- Due to budget limitation, only 6 out of 25 provinces that have financial support for OD/PHD to conduct GoC coordination meeting with health care providers, NGOs, and relevant stakeholders to ensure the whole cascade from case finding to connecting and receiving quality of HIV related services is operated effectively.

Next Plan.

Plans for next reporting period including solutions to address the above constraints.

- Provide technical support and coordination with Group of Champion (GoC) for conducting GoC Meeting and coaching for ACM & CQI Interlink.
- Coordination with B-IACM team by Group Telegram (NCHADS/B-IACM for program implementation) and CMA/CMC Group Telegram for B-IACM database.
- Plan to conduct training on ACM tool and database to new sites for CMC and CMA, PASP and relevant stakeholders.
- Ongoing provides technical support to ODs especially new sites and sites with low performance.
